Subir (To go up)	Sube	Suba
Bajar (To go down)	Baja	Baje
Usar (To use)	Usa	Use

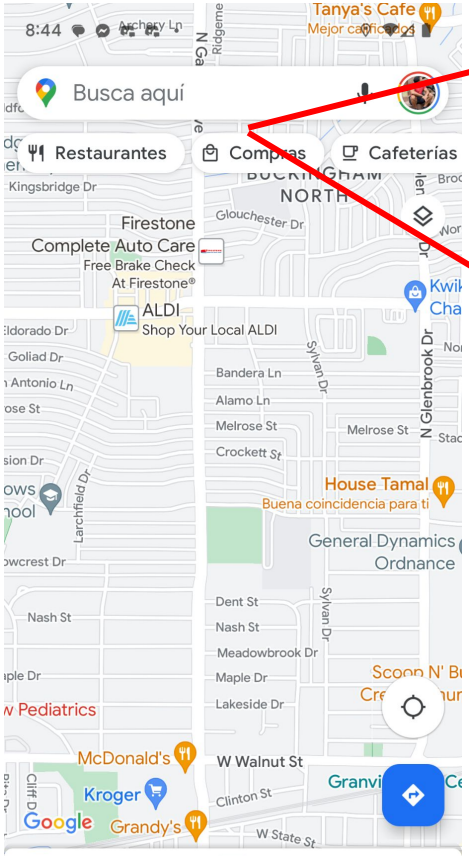

Llegamos!

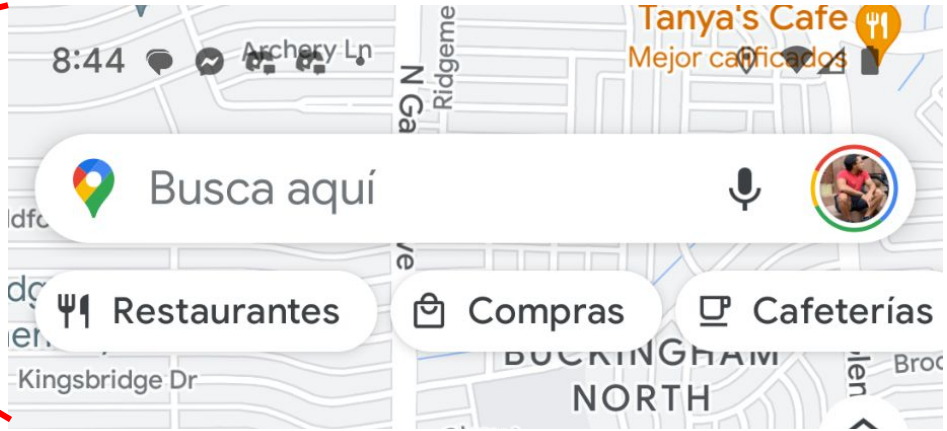

- Está ahi
- Está a la derecha
- Está a la izquierda

EN EL GPS

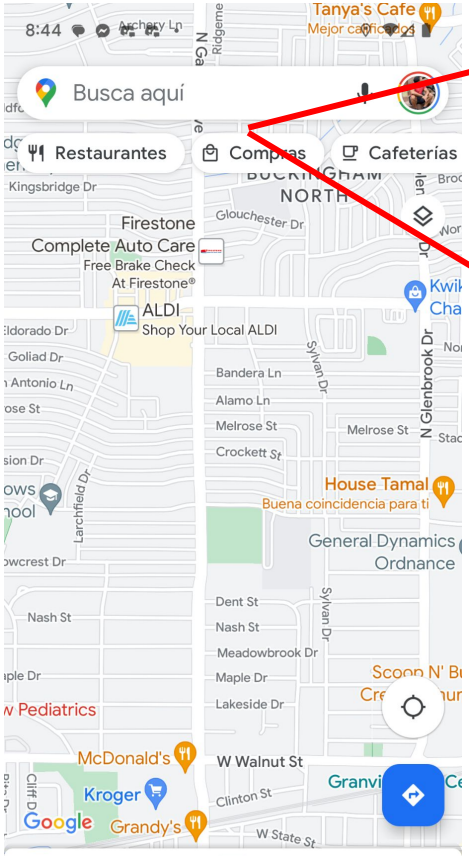

I’m gonna walk you through all the things you’ll see on your GPS when it’s in Spanish. This is Google Maps.

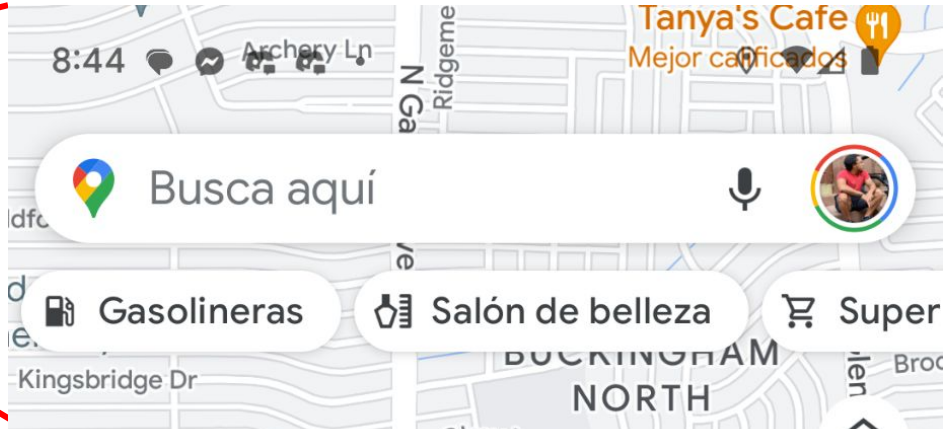

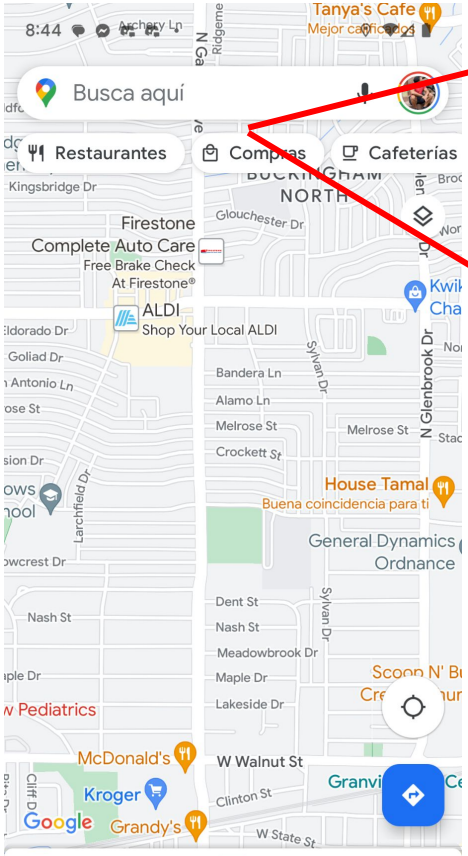

Busca aquí = Search here.

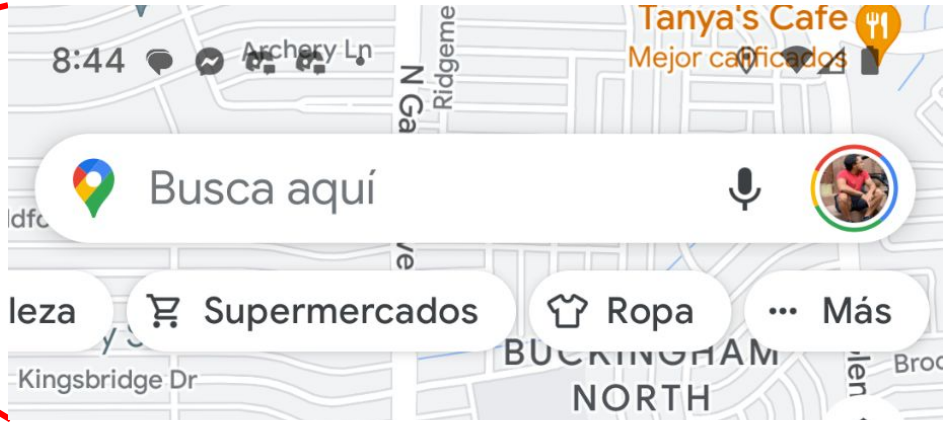

Below that are the categories you can search by: Restaurants, shopping, coffee shops…

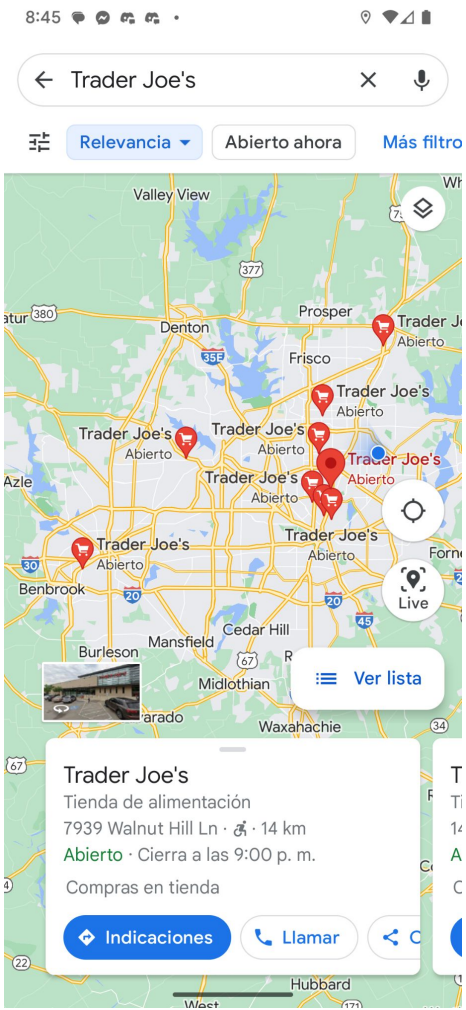

Gas stations, beauty salons…

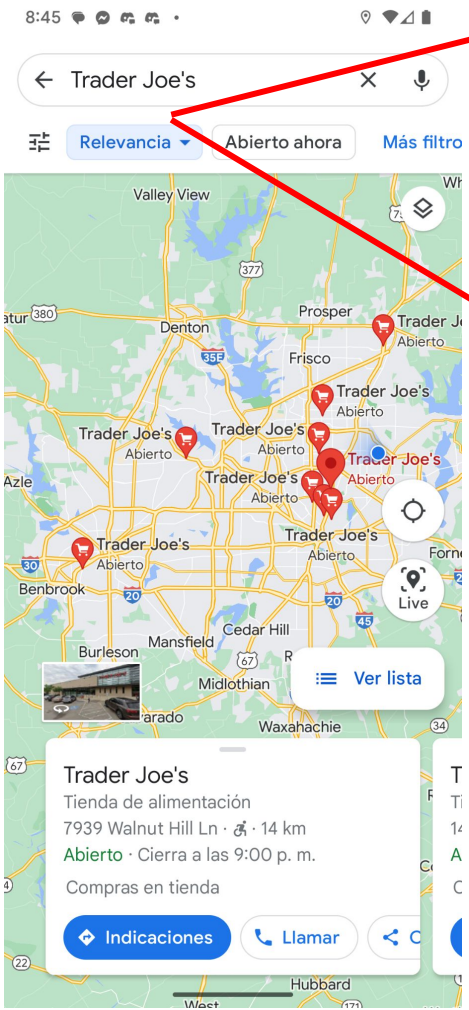

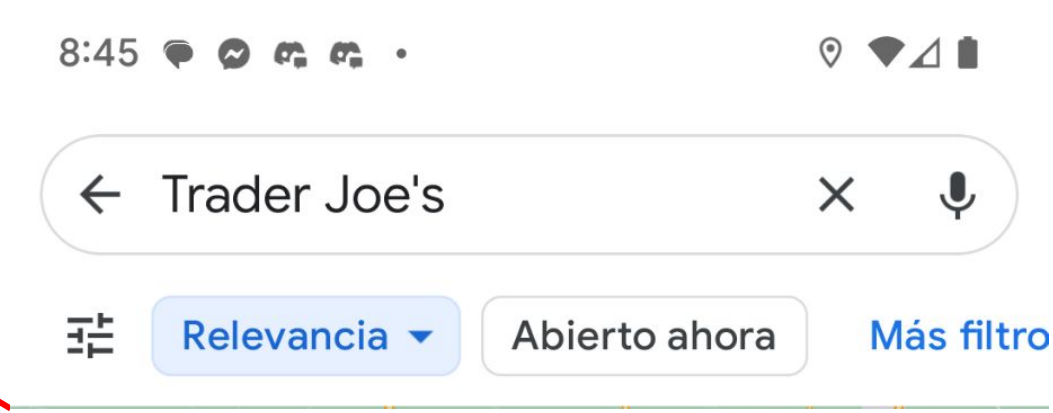

Supermarkets, clothes, and more.

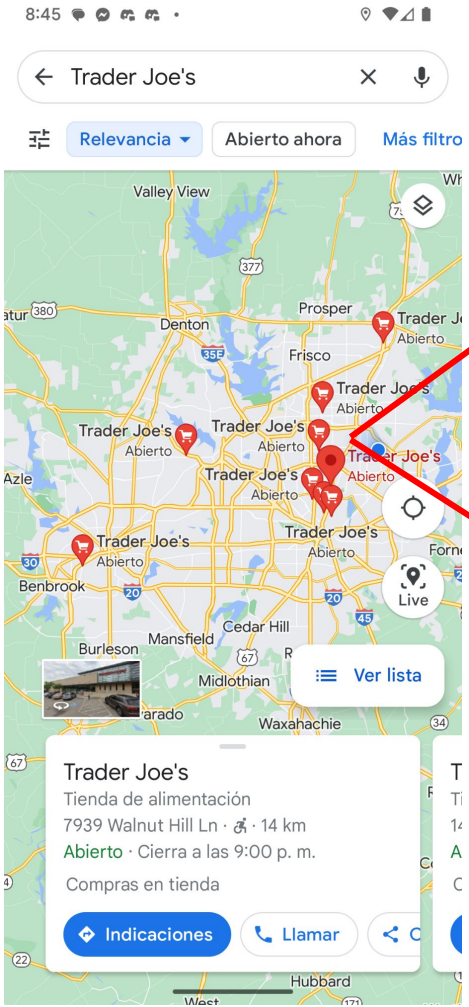

If you search for a specific location…

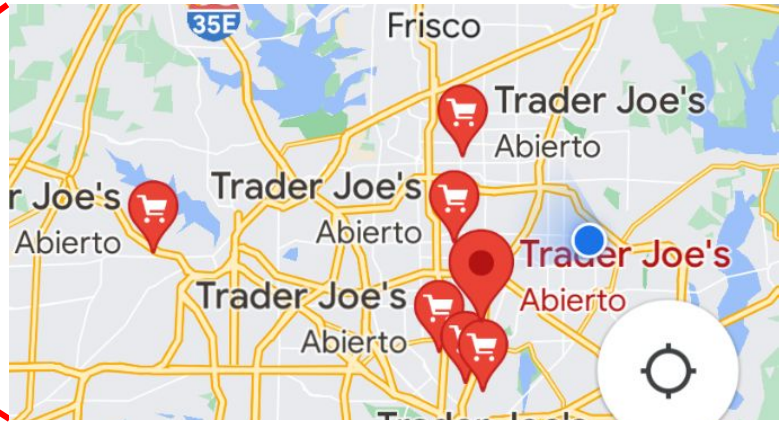

The top part will show you a couple filters:

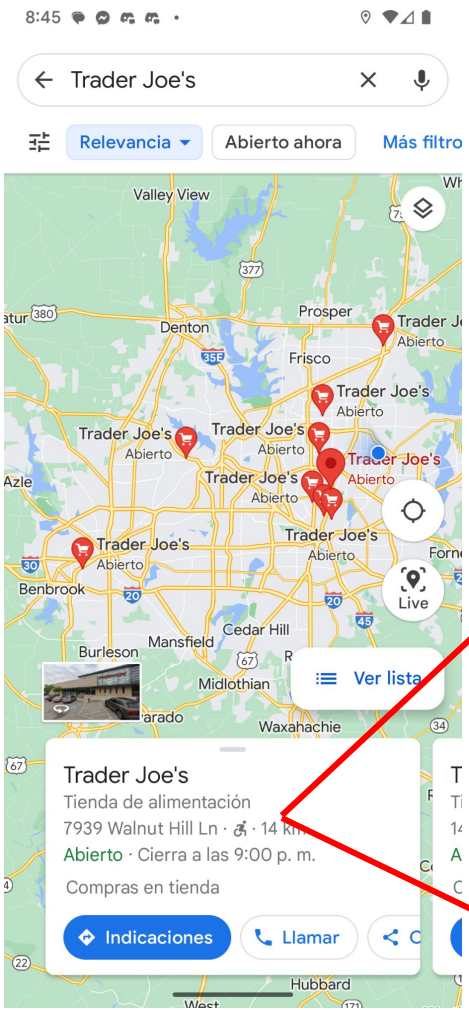

- Relevancia = relevance
- Abierto ahora = open now
- Más filtro = more filter

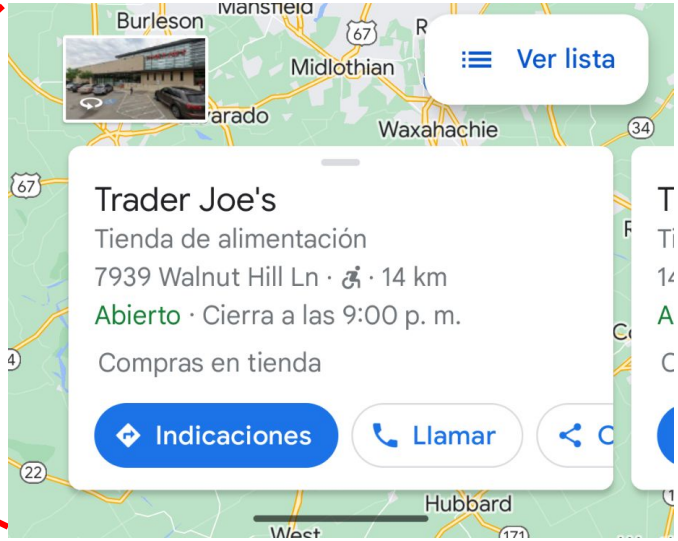

On the map, you'll see different locations that will say

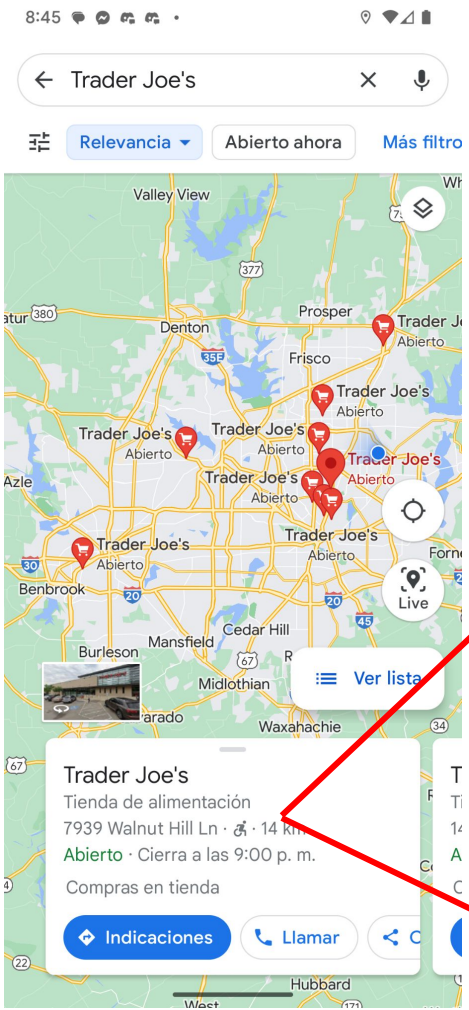

- Abierto = open
- Cerrado = closed

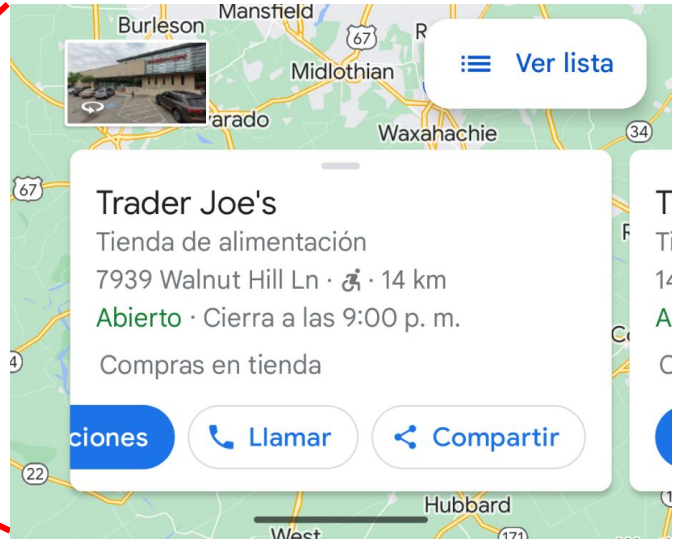

The Ver lista button at the top is “See list”. The cards show

- What type of place it is (here, tienda de alimentacion = food store/grocery store)
- Whether it is open/closed and when it reopens/closes (Cierra a las 9 = closes at 9)
- Compras en tienda = in-store purchases
- The buttons at the bottom are
  - Indicaciones = directions
  - Llamar = call

The Ver lista button at the top is “See list”. The cards show

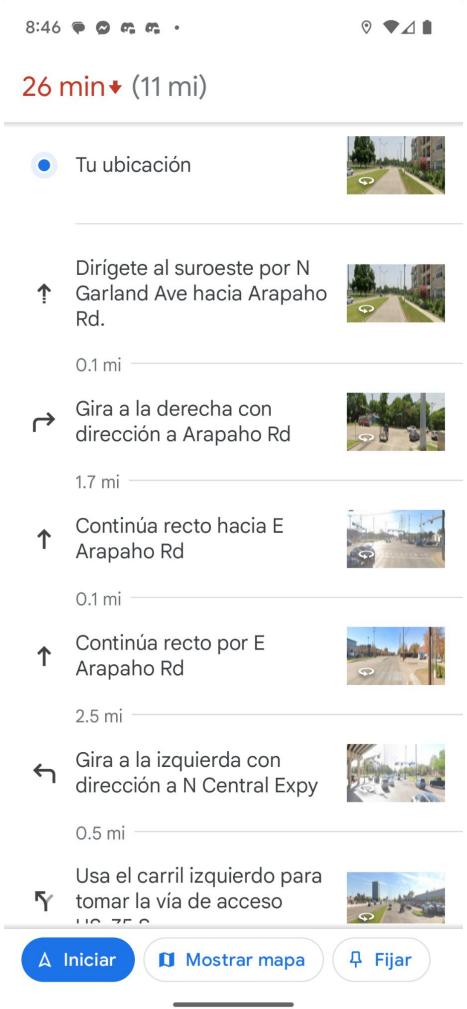

- What type of place it is (here, tienda de alimentacion = food store/grocery store)
- Whether it is open/closed and when it reopens/closes (Cierra a las 9 = closes at 9)
- Compras en tienda = in-store purchases
- The buttons at the bottom are
  - Indicaciones = directions
  - Llamar = call
  - Compartir = share

If you click on the location card, it will give you some information.

- The top part is above saving gas and parking
- The middle part is about how much traffic there is, railroad crossings, and any current traffic delays
- The bottom sections has steps for how to get there
- The buttons at the bottom:
    - Iniciar = start
    - Mostrar mapa = show map
    - Fijar = to pin

The steps show the directions it will be giving you once you hit “Iniciar.”

Trader Joe's

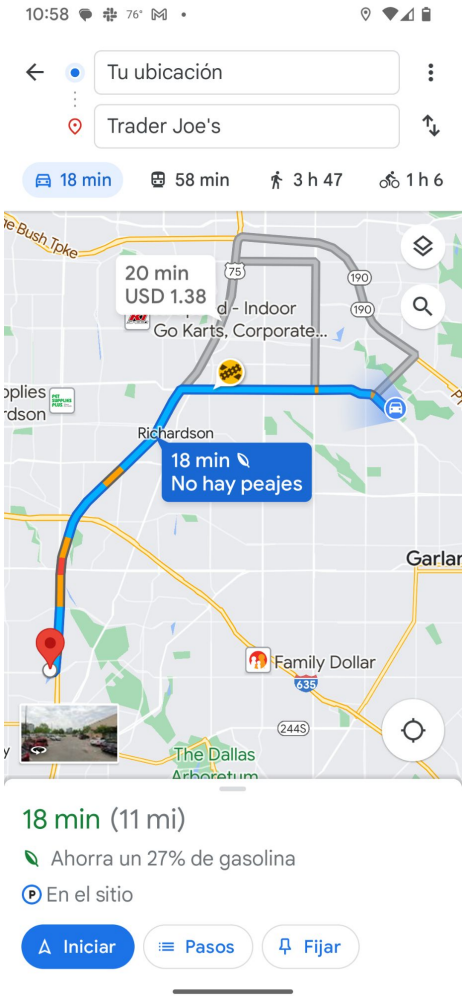

7939 Walnut Hill Ln

El destino está a la izquierda.

The destination is on the left

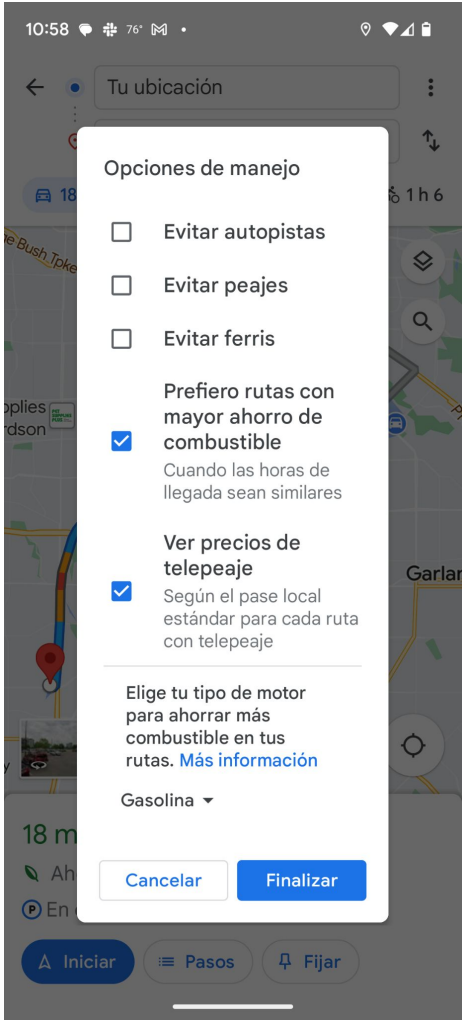

Iniciar | Mostrar mapa | Fijar

No hay peajes = there are no tolls

- Tu ubicación = your location
- Opciones de ruta = route options
- Agregar parade = add stop
- Buscar en la ruta = Search on the route
- Establecer hora de partida o llegada = Set departure or arrival time
- Agregar ruta a la pantalla principal = Set route to the home screen
- Compartir las instrucciones = share the instructions
- Compartir tu ubicación = share your location
- Acerca de estos resultados = about these results

If you click opciones de ruta, this is where you choose to avoid highways/tolls, etc.

- Evitar autopistas = avoid highways
- Evitar peajes = avoid tolls
- Evitar ferris = avoid ferries
- Prefiero rutas con mayor ahorro de combustible = I prefer routes with better gas savings
- Ver precios de telepeaje = see toll prices

PRACTICE EXERCISES

- Write down directions for how to get from your house to work, your main grocery story, the gas station, and other places that you frequent.

PRACTICE EXERCISES

- Write down directions for how to get from your house to work, your main grocery story, the gas station, and other places that you frequent.
- Practice explaining where things are located. Where is your wallet, phone, keys, *anything*. Ask yourself out loud where something is and then tell yourself where it is.

PRACTICE EXERCISES

- Write down directions for how to get from your house to work, your main grocery story, the gas station, and other places that you frequent.
- Practice explaining where things are located. Where is your wallet, phone, keys, *anything*. Ask yourself out loud where something is and then tell yourself where it is.

These practices are helpful because if you don't know how to say/explain where something is, then that's a clue where you should spend a little more practice. You want to be able to say the things you normally say in English in Spanish too. It's not just about memorization—it's also about USE.

MY BIGGEST TIP

If you're not on the Polluelo checklist yet and you're not ready to change your whole phone to Spanish, there's an alternative!

You can just switch the language for *specific apps* (usually Settings > Language). Start with GPS!
