El clima vs El tiempo

El clima vs El tiempo

- **El clima** = The climate (How weather TYPICALLY is in an area / over periods of time)

El clima vs El tiempo

- **El clima** = The climate (How weather TYPICALLY is in an area / over periods of time)
- **El tiempo** = The day-to-day weather. This can also mean “time” so use is based on context.

El clima vs El tiempo

- **El clima** = The climate (How weather TYPICALLY is in an area / over periods of time)
- **El tiempo** = The day-to-day weather. This can also mean “time” so use is based on context.

For example, weather forecast = el pronóstico del tiempo.

El clima vs El tiempo

- **El clima** = The climate (How weather TYPICALLY is in an area / over periods of time)
- **El tiempo** = The day-to-day weather. This can also mean “time” so use is based on context.

For example, weather forecast = el pronóstico del tiempo.

These can be confusing because sometimes clima is used interchangeably with tiempo. So just keep that in mind.

WARNING

WARNING

Many learners get confused about **hacer vs ser vs estar** when talking about the weather.

- Do **not** use *ser* to talk about day-to-day weather. *Only* the climate. Because daily weather is temporary. Climate is the way the weather *typically* is.
- The verbs you will use are **hacer**, **estar**, and **haber**.

Let's break each of these down.

WARNING

Many learners get confused about **hacer vs ser vs estar** when talking about the weather.

- Do **not** use *ser* to talk about day-to-day weather. *Only* the climate. Because daily weather is a condition that changes. Climate is the way the weather *typically* is.
- The verbs you will use are **hacer**, **estar**, and **haber**.

Let's break each of these down.
